

March 17, 2020

Dear NHCSB Families,

The continuation of learning during periods away from school is important. At New Heights Charter School of Brockton, we recognize the importance of learning during these absences and we are providing families with academic enrichment opportunities when students are not in school.

The academic enrichment work is posted to the school's website. Since the work is considered academic enrichment, students will not receive grades, and all work completed is voluntary. In some cases, teachers may send work home via Google Classroom or via email so that students may earn extra credit. Students are not required to complete the teachers' extra credit work, but we encourage all students who may need or wish to use this opportunity for extra credit to submit completed work to their teachers upon our return.

When students return, each student will pass in their completed projects and/or forms to his/her English or math teacher, based on the assignment. If a teacher sent home specific work for extra credit, please return that work to the specific teacher. Please be sure that students' names are on all documents. Each student who participates in work completion will be invited to an exclusive pizza party during the school day!

Sincerely,

Laura Miceli

Director of Curriculum

Student Enrichment Opportunities

| Grade | Subject | Text Options | Online Options |
|-------|---------|---|---|
| 6 - 8 | ELA | <p>Select the grade appropriate ELA/Math packet to complete:</p> <p>Student Sample Booklet: Math, Reading, Writing Gr 6</p> <p>Student Sample Booklet: Math, Reading, Writing Gr 7</p> <p>Student Sample Booklet: Math, Reading, Writing Gr 8</p> | <p>Complete the Reading Response - students can select an activity on the Reading Response sheet to complete based on a book of their choice or the book that they are reading in English class.</p> <p>Sign up for Duolingo (www.duolingo.com), it's free, if you want to reinforce your English skills or to support your Spanish or French classes.</p> <p>ELA Challenge - Track your daily participation in online reading, writing, and activities that reinforce important skills.
